Hey Clay,

I've been monitoring these Rosemont emails. Thanks for carrying the water – I'm buried from now until I leave for vacation but let me know if you need a pinch hitter on anything.

Rachel

Subject: ROSEMONT MINE CALL: Pre-Brief materials

In preparation for the Rosemont Mine Call (December 12 between CEQ, USFS, EPA, Corps and BLM) we have prepared materials that highlight for Ken the issues that Region 9 has identified. CEQ requested for the agencies (EPA, Corps, BLM) to provide an outline of the environmental (not NEPA process) issues each of the agencies have with the USFS FEIS and proposed ROD.

We have hand delivered to Ken the attached materials.

Clay
